

FOOD CONTACT CERTIFICATE

ADHESIVE HM200L

Over the last years, the basic legislation that has been leading at the European level for materials and articles intended to come into contact with food has been regulated by diverse Directives and Norms. These Regulations have made provision for the adoption of specific directives or measures relating to particular groups of materials or articles.

In case of the acrylic hot melt HM200L, used to manufacture the Adestor self-adhesive materials which contain adhesive layer, has obtained the ISEGA certificate.

We herewith would like to confirm that the HM200L adhesive is suitable for use in direct contact with dry and moist, non-fatty foodstuffs. That is, all the labels containing the HM200L adhesive can be in direct contact with dry and moist, non-fatty foodstuffs as indicated in Regulation (EU) No. 10/2011.

This adhesive is also in compliance with the German Recommendation BfR XIV (Bundesinstitut für Risikobewertung) regarding the constituents subject to its field of application.

Issued: January 2020

This certificate of conformity is based on information provided by suppliers and tests done in external laboratories that we consider to be reliable, but in any case it constitutes any warranty. Responsibilities in the appropriate use of the product relays on the final user.
